Ms. Mayes,
You are mistaken. I am not willing to pay additional money on my APS bill to support renewable energy efforts, even to the tune of $1.00.
Especially after APS stuck me with a very large increase in my cooling bill for this summer. I used less energy in August than I did in July and my bill was higher. Until APS gets its act together I am unwilling to pay them any more for anything. Perhaps they could stop advertising, purchasing luxury boxes at the Chase Field and rethink the high salaries that they pay the CEO and other top managers and work more on reducing my utility bill.

Chris, I am an APS customer and I am not willing to fork over more money to support APS's qwest into the hinterlands of renewable energy. Get in touch with reality Chris and the customers. We don't want anymore hikes in our bills. We already think we are being gouged. I look forward to the next earning statement for APS to prove this.

Paying for contracts? Are you crazy? So how much is your kick back for this stupidity, Chris? This idea on the back of an enormous rate hike not only stinks but gives the appearance of a scam and just plain stealing. We all know that APS did not get their "dream" increase so I guess they have to go in the back door to get more.

I voted for you but I am clearly ready to support any justification of recall for you or any other commissioner than forces any more uncalled for rate hikes.

If I were you I would consider the statements of Mr. Gleason. This is a really bad idea you are proposing.
